Loma just had to get in touch with someone：“I had to tell my best friend something important．I tried calling her but I couldn’t get through．so I sent her an e-mail and then I spoke to her on MSN．Without technology I would not have been able to tell her．”

Staying connected with friends and family is important for us．That’s why we asked our readers to tell us how cell-phones，e-mail，blogs，text messaging，and personal pages help them keep in touch．More than 1,500responded．

Most of you told us you couldn’t live without technology：80％of teens said they need technology to stay in touch．Almost 30％said they’d’be completely out of their friends without their cell-phones and other methods of communication．

What do you do when you’ve got news you need to share now? Most teens say they try to reach their friends by phone．But if they don’t reach them，they use QQ，e-mails，and text messaging to get the words out．

Lots of people use one way of communication--like text messaging—to get a friend's attention and then use another where they can talk more．“My friends and I always tell each other everything that happens．So I send them text messages to tell them to come online so we can talk about it,”said Sabeiha．

“When planning to get together with friends”，Julian said，“the easiest and fastest way I know is to send a text message to my contact group．”Jocelyn said．“If I want to go to see a movie with a few friends，I usually send text message to them．By telephone，you have to call every single friend one by one．But text messaging allows you to send the same message to as many as you’d like，which saves a lot of time．”

Dear David,

It's very kind of you to write to me and let me know about your beautiful city. Now I'd like to tell you something about my hometown Happy City.

The city stands on the bank of the Yellow River. It is a beautiful place for people to live in. The weather changes greatly from season to season. Great changes have taken place in our city and its economy has been developing rapidly. New factories and houses have been built. However, there are also some problems, such as water and air pollution and heavy traffic in rush hours. At present with the growing of private cars, traffic blocks.

In my opinion, Happy City should develop its economy scientifically. I would also think

that the growth of population should be brought under control so that we'll have a bette hometown in future.

Now about the news. An early morning fire damaged the historic Geller House today. It destroyed the third floor of the building but fire fighters saved the first and the second floors. There were only a few elderly people living in the building at that time and they were carried out to safety. The Geller House was built in 1718 and was used as a hotel for over 150 years. George Washington stayed here in 1782. The Geller family owned the building for the elderly. Several fire departments were called to the scene. When we asked Fire Chief Andrew Bond how the fire started, he answered that it was most likely a burning cigarette caused it. Chief Bond promised to further examine the cause.

W: Did you get the person out?
M: It was a little girl. Yes, I got her out.
W: But there was a lot of smoke.
M: Yes, a lot. I had some trouble breathing, so they sent me here just for the doctors to take a look at me.
W: And now you tell me that it's all part of the job.

M: Well, it is. You shouldn't worry all the time.
W: But I do. I hope you'll leave your job.
M: Leave my job? No, not because of a little smoke. I'm really all right.

M: Good afternoon. We've just read your advertisement. It says you've got a room to rent. May we look at it, please?
W: Of course you can. Come upstairs, please. The room is on the second floor.
M: It looks very nice.
W: Yes, and it's far away from the noise street.
M: How much is the rent?
W: I charge 45 pounds a week, for bed and breakfast. I usually serve breakfast between eight and half past eight. But of course on Sundays you needn't have it until half past nine or ten.
M: That sounds very good. When can I move in?
W: Tomorrow if you like.
