This message was in code(密码，代码). How many letters are there in the English alphabet? Twenty-six. So can you read it now?

A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	…
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21	…

David decided to use a different code in his answer to Sam. This time, he was putting A instead of B, B instead of C, and so on. His message to Sam shown on the right was very short. Can you understand?

智康1对1

A	B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z
B	C	D	E	F	G	H	I	J	K	L	M	N	O	P	Q	R	S	T	U	V	W	X	Y	Z	A

Sam guessed David's code, and he replied: ZESDQ RBGNNK. When David's little sister saw the message, she felt puzzled. She couldn't read it at all. But David was very happy that his sister couldn't read his message!

Lots of people use codes to send secret messages. In a war, secrets are very important so soldiers often send each other messages in code. Nowadays, we can use computers to make and break difficult codes. Even before computers, people invented other machines to do this.

Here's a famous machine that Germans used in the Second World War (1941-1945). It's called the Enigma Machine. The machines were very big, heavy and expensive. Every day they changed the codes automatically, and this made it almost impossible for anyone to break the codes. The person sending a message had one machine, and the person receiving the message had another.

47. Sam told David to meet him

I think the most important machine is computer. Computers and Internet changed the world a lot. They have advantage and disadvantage. On the one hand, if we learn to use the modern machine and surf the Internet, we can learn more and more knowledge and information faster and better. They can help to open up our eyes to the outside world. On the other hand, if we spend too much time playing computer games, making friends on the line and writing to each other, we will be worse and worse in our study.

So I want you, my dear students, to be careful with computers and Internet. You'd better not get on-line on weekdays. On, weekends and holidays, you can surf the Internet with your parents. Then computers and Internet will help with your study, not do harm to you.
