It is Saturday today. I took part in the "Environment Protector" activity with my classmates today. In the morning, we went to the People's Park at 8:00 by bus. When we got there, we found that the children were climbing the trees, the ground and the public walls were very dirty. So we began to pick up the rubbish and clean the public walls. We also planted some trees. All of us worked very hard. We think it's our duty to take good care of our environment. If everyone protects the environment, the world will become more and more beautiful.

Jack worked in an office in a small town. One day his boss said to him, "Jack, there are some important letters for Mr. Black. I want you to go to London to see him and give him the letters. Here is his address. His office is near the station."

Jack went to London by train. When he got off the train, he thought, "The office isn't far from here. I'll find it easily."

But after 2 hours he was still looking for Mr. Black's office, because he had never been there before. So he stopped to ask an old woman where the office was. She said kindly, "Go along this street, turn to the left at the end, and it is the second building on the right." Jack thanked her and then he went and found it.

A few days later, Jack went to the same city on business, but again he couldn't find the office, so he had to ask the way again. It was the same old woman. She was very surprised and asked, "Are you still looking for that place?"

Less Pressure, Better Life

Hello, boys and girls!

Pressure is a serious problem in today's world. Students in our class are under too much pressure. Some students can't get on well with their classmates, while others may worry about their exams.

I'm always under pressure, too. My parents want me to be the top student in class. So they send me to all kinds of after classes at weekends. Last Monday evening, I had a talk with my mother. I told her I was not lazy. I really felt tired. I needed time to relax. My mother agreed with me at last. So I think a conversation with parents is necessary to solve the problem.

That's all. Thank you!
