Kara didn't like spiders(蜘蛛). In the summer she often saw spiders walking on the walls and building webs near the front door of her house. Whenever she saw a spider in the house, she quickly stepped(踩) on it.

Kara was learning about food chains(食物链) in school. Her teacher explained that spiders are consumers(消费者). They eat common pests(害虫). Because they eat pests, spiders help protect plants to grow well. Kara's teacher said that most spiders are helpful to humans.

"When you see a spider in your house," said Kara's teacher, "remember that it has an important job to do outdoors. Instead of killing it, you can put it into a plastic bottle. Without touching the spider, close the lid(盖子). Then, let the spider go outside."

That night, Kara saw a spider inside the house near the front door. At first, she

wanted to step on it. But then she remembered what her teacher had said. She ran into the kitchen and asked her mum to help her catch the spider in a plastic bottle. To her surprise, the spider walked right into the bottle! Kara and her mum took the bottle outside. They opened the lid, and the spider walked out.

For most kids, height(身高) isn't something they can change, so what would you do if you don't like your height? It might be girls feeling too tall or boys feeling too short. But some really tall boys might not like all that height and some shorter girls might get tired of all the jokes or feeling that they're staying little while their friends are growing up.

If you are still worried about your height, talk to your parents and your doctor. Most

kids don't have a growth problem that needs help from a doctor, but it's always OK to ask if you're worried.

So for most kids, it seems like there's not much to do but wait at to see how it all turns out. But you can do something right now: eat healthily and take care of yourself. If you get the nutrition(营养), sleep, and exercise you need, you'll grow as tall as you were meant to grow.

And even though you may hear people say it, taking extra vitamins or supplements(补品) that you can buy in a store won't help you get taller. Just stick to a healthy diet if you want to be the tallest you can be!

Kids who wish they weren't so tall should still eat healthily and take care of themselves, of course. Eating less won't make you end up any shorter.

As they get older, most kids learn to feel comfortable with their height, whether they turn out tall, short, or somewhere in between.

56. What is this text mainly about?

- A. Some advice on how to grow taller.  
B. Some advice on height worries.  
C. Some problems kids are facing.  
D. Some reasons that affect(影响) height.

57. Who can you talk to if you are worried about your height?

- A. Your teacher and classmates. B. Your best friends.  
C. Your parents and doctors. D. Your brothers and sisters.

58. If you want to grow taller, you can do the following EXCEPT \_\_\_\_\_.

- A. getting enough nutrition B. getting enough sleep  
C. taking some exercise D. taking extra vitamins

59. We'll feel comfortable with our height \_\_\_\_\_.

Each different part of China has its own special forms of traditional art. These usually try to represent(代表) the things that are important in life such as love, beauty and family. The most common things, from paper to clay(泥人), are turned into objects of beauty.

According to Chinese history, sky lanterns(孔明灯) were first used by Zhuge Kongming. He sent them out to ask for help when in trouble. Today, sky lanterns are used at festivals and other celebrations. They are made of bamboo and covered with paper. When the lanterns are lit(被点燃), they slowly rise into the air like small hot-air balloons for all to see. They are seen as bright symbols of happiness and good wishes.

Paper cutting has been around for more than 1500 years. Paper cutting sounds very easy but it can be difficult to do. The paper, usually red, is folded before it is cut with scissors. The most common pictures are flowers, fish animals, and things about Chinese

history. During the Spring Festival, they are put on windows, doors and walls as symbols of wishes for good luck and a happy new year.

Chinese clay art(中国泥人艺术) is famous because the clay pieces are so small but they look very real. These small pieces of clay art show the love for life and beauty.
