Every school seems to have a “bully” (横行霸道者). In fact, bullying (欺凌) goes on in schools all over the world. Bullying is a common situation at school. We need to get to know more about bullying.

Who is chosen? Bullies choose people who don’t fit in—someone who “looks different” or isn’t as “smart” or as “rich”. For example, shy kids are often chosen because of their characters. Physically hitting someone is the most terrible form of bullying, but insulting, gossiping and making fun of others are also usual forms of bullying.

What can you do to stop bullying? If you are the bully, think about how your actions hurt others. You can’t build yourself up by putting others down. When you’re feeling stressed or angry, find acceptable ways to deal with your frustrations.

If you are the victim, tell a trusted adult and get some help. Many times adults can find ways to solve the problem. Here is some wise advice:

- Pay no attention to the bully and walk away.
- Hold your temper. Maybe the bully wants you to explode.
- Don’t fight physically. It may lead to more violence.
- Practice confidence even if you have to pretend it.
- Talk with parents or teachers about it. They are sure to help you solve the problem.
- Make true friends at school. That may be helpful.

根据短文内容,补全表格中所缺的信息。(每空一词)

There are some advantages. Smart phones make it convenient for us to keep in touch with our family and friends. They can replace the computers in some ways. For example, we can use them to study or shop on the Internet. They can also make our life more colorful such as listening to music and taking photos.

However, there are some disadvantages. First, some students spend too much time on the phone, so they communicate with their family less. Second, it's harmful to eyes if you use phones too much. And it can also cause other illnesses. Third, some students are addicted to mobile phone games so that they give up their study.

In my opinion, we should spend less time on the phone. We are not supposed to take the phone to school.

听第五段材料，完成第 23—25 小题。

Hello, boys and girls. Welcome to Teen Time. Today, I'd like to talk about swimming. Swimming is very popular in summer. People like it because water makes them feel cool. If you like swimming in the river or sea, it may not be safe. In recent years, about ten thousand people died while they were enjoying themselves in the water and most of them were students. But some people are still not careful when swimming. They often think they can swim so well that nothing can happen to them in the water. Now summer is coming again. If you go swimming in summer, don't forget that even good swimmers may die in the water.
