Example:

My Travel to the Universe

I always dream to travel to the Universe, which has a black hole and many mysteries. I can take a spacecraft to it and spend time in enjoying the view out of the window. It must be very beautiful! First, I can see many stars in the sky. They sparkle many times in a minute. Second, a lot of unknown things exist in the universe, which will attract my attention. Third, I can see the earth from a different angle. Maybe the Great Wall is in sight.

As a whole, the universe is full of beauty and stories. I really want to have a chance to go to the universe as a traveler.
