Should students do housework?

Last week, our school did a survey about whether students should do housework. Here's what we think.

Some students think we should do housework. It's not enough to just get good grades at school. We shouldn't depend on our parents too much. On the other hand, doing housework helps to develop our independence and teaches us how to look after ourselves.

But others disagree. They think doing housework is a waste of time. We should spend time on schoolwork and get into a good university.

I think we should do some housework. It's not only the parents' job to provide a clean environment at home. Everyone should do their part in keeping it tidy.

In a word, the earlier we learn to be independent, the better it is for our future.
