I think it's hard for a teenager to live in the modern society. For example, how to go to school is a problem I often worry about. Every afternoon, my father picks me up at the gate of school. Many parents pick up their children, too. Most of them drive private cars. Out of all the cars, Tracy's father's car is the best. Tracy seems to have a very rich father. She always has beautiful dresses, shoes and bags. Besides these, she is also very beautiful. But she has no friends in school. When other students are playing, she never joins them. I don't like her because she is too perfect. It makes me uncomfortable to make friends with her. She seems to have everything.

One afternoon, when I went to my father's car, I saw a small thing fall out of Tracy's bag. So I called her quickly. However, she didn't look back and kept going. I felt very angry with her.

During the dinner, my father asked me, "Why do you look unhappy?"

"Today I saw something fall out of Tracy's bag, so I called her. But she didn't answer me. She is arrogant(傲慢的)." I said angrily.

"Oh, I know that girl. She has no friends and is unhappy because she was born deaf. I am sure that she didn't hear you."

What my father said suddenly woke me up. Because she was deaf, she did not talk or play with anyone at school. She seemed to have everything, but in fact she didn't.

An increasing number of people are always looking at their mobile phones with their heads down. These people are called the "Head-down Tribe(低头族)". Are you a head-down tribe

member? Head-down Tribe members now can be seen everywhere.

More and more traffic accidents are happening because more drivers use mobile phones when they are driving. In order to make drivers pay more attention to driving, some new traffic rules have been made. For example, people who use mobile phones while driving in Taiwan are fined(罰款). Car drivers and motorcyclists who break the traffic rule will be fined NT \$ 3,000 and NT \$ 1,000 respectively.

As we can see above, using mobile phones may cause accidents and even cost a lot of money. Also, more and more interesting and strange facts happen to the "Head-down Tribe". Let's have a look at an interesting TV report. A man in America kept using his mobile phone on his way home. As a result, he knocked into a big lost bear. When he lifted his eyes on his phone, he was so scared that he turned around and ran away as quickly as possible. Another fact is that we can often see people in the restaurant eating face to face but looking at their own mobile phones. It's strange that they don't talk to the ones who sit opposite to them during the meal. Some of them even have fun communicating with others on the phone.

Mobile phones are helpful and necessary tools for modern life. Let's be "healthy" users and try to be the "Head-up Tribe".
