## 书面表达（10 分）

参考范文：

Boys and girls,

It is very important for us to keep healthy. What should we do to keep healthy? Here are some suggestions.

First, we need to have healthy eating habits. We should eat more fruit and vegetables. We shouldn't go to school without breakfast.

Second, it's important for us to get enough sleep. As students, we should have at least 8 to 10 hours' sleep every day. It will keep us active during the day.

Third, doing sports can also help us keep healthy. For example, walking and running is good for our heart, lungs and legs. Also, we should say no to smoking and drinking. It can cause many illnesses.

Last but not least, we'd better not go to crowded places, it's bad for our health.

Follow my suggestions, and you will keep healthy.

That's all. Thank you.
