The baseball season goes from April to September. During this time, baseball matches are showed on TV and members of the important baseball teams become America's heroes. At the end of the sea-

son, the two top teams play against each other. Many baseball fans go together to watch the game. Millions of others listen to the radio or watch the television. People seem to talk only about the game. Even long after it is over, they still talk about the result and the players.

Many people know it's necessary to have breakfast. It's the most important meal of the day. It gives us enough energy for the morning. If we want to keep healthy, we should have a good breakfast.

But in fact, many students go to school without breakfast. This is very bad for their health. Some of them get up late because they want to sleep more in the morning, so they have no time to have breakfast. And some other students don't have breakfast because their parents are too busy to prepare breakfast for them.
