One day, John read an advertisement in a newspaper. It said "Wanted. The best salesman in the world." John thought he was a great salesman and went to ask for the job. "I'm the best salesman in the world," he said to the manager. "Give me the job."

"You must prove you're the best," the manager said.

"OK, I will," John said.

"Good." The manager took several boxes of sweets out of his desk. "Last week I bought a thousand boxes of sweets. If you can sell them all before the end of the week, you can have the job," said the manager.

Many people enjoy watching movies in a cinema. They think the cinema has a better atmosphere (气氛) to enjoy the movie. However, I think people are happier and freer when watching movies at home.

Watching movies at home is more comfortable. To watch movies in a cinema, you have to buy a ticket before you go there for a better seat. However, there is no need for people at home to worry about the ticket. They can enjoy movies at any time they like and with the most comfortable seat. What's more, people watching movies at home wouldn't have to face any traffic problems.

It is free to watch movies at home. In the cinema, we can't go outside and do something else because the movie won't wait for us. Sometimes, if we miss part of the movie, we can't follow(跟不上) the story. At home, we can pause(暂停) at any time and go back to watch the part.

All in all, a cinema is a good place to watch movies, but it isn't the best place to enjoy the movies. I think watching movies at home is better.

读短文, 按要求完成 61-65 题。

61、62 题为补全句子; 63、64 题为回答问题; 65 题为从文中找出并写下全文的主题句。

Do you often have a headache during a test? Are you worried about something that you can't sleep well at night? If so, then you will know what pressure(压力) is. You will feel it when you are worried about something. This worry in your mind can make your body feel bad. You may feel angry, sad or afraid—all of them can make your life bad.

There are different kinds of pressure. Some kinds of pressure are good and others are bad.

Good pressure might come to you when your teacher asks you to answer questions in class or when you try to get good grades at school. This kind of pressure can help you to do things better.

On the other hand, bad pressure will come if the pressure lasts (持续) too long. You may not feel well if your parents are getting on badly with each other, if a family member is sick, if you're having problems at school, or if anything else often makes you unhappy. That kind of pressure isn't going to help you. And it can really make you feel sick.

The best way to face pressure is to make sure you keep these in mind: sleep, exercise and food. If you get enough sleep and eat healthily, and if you exercise and leave time for fun, you'll probably have an easier life.
