## 笔试部分

Last Sunday, Claire's dentist told her the bad news: she had to start wearing braces (牙箍). Some of her teeth were not growing in straight. They might bring problems to her other teeth.

Claire was not happy with the news. She thought of all the food she couldn't eat. She thought of how she would have a different smile. She did not want to have something that made her different from others.

The big day came, and Claire made her way to the dentist's office. Claire watched a TV show when the dentist put braces on her teeth. She tried to think of something fun so that she did not get scared. It seemed to take forever (要花很长时间) for the dentist to finish .... In the end, the dentist told her to sit up and gave her a mirror.

Claire looked at herself in the mirror. Her smile was new, but she didn't like it. She did not know how she would wait two years for these things to come off, but there was no other way. Claire's mom took her to get ice-cream to make her feel better. She just had to get used to (适应) the braces. It would all be worth (值得) it because she would have a beautiful smile to enjoy two years later!
