93. writing; your book
94. works for, improve
95. a long time/your lifetime; come true/be realized

VIII. 书面表达

The danger is around us, so we must learn how to keep away from the danger.

First, when we're at home, we shouldn't let strangers in. We should remember to shut off the power when we leave home. Second, try our best to deal with them well when we have problems. Don't fight with the classmates. Third, we are not allowed **to** go across the street when the traffic light is red/don't jump/run the red light. Moreover, don't ride too fast. While crossing the street, never look through/use mobile phones. Fourth, as students, we have to be careful when we make friends, especially on line. We'd better not go out alone at night. What's more, we should eat healthily and safely. Remember to wash hands before meals.

I think we need to guard against any possible danger around us. If all of us pay attention to the safety tips, we'll protect ourselves well.
