If you are an American and want to visit Britain, here are some manners you should pay attention to before going there.

It would be easier to cut food when the knife is in your dominant hand. After the food is cut, Americans usually put down the knife and eat with their dominant hands. Englishmen, on the other hand, hold the fork in their non-dominant hands and take a bite.

Americans usually cut up several pieces of meat before actually eating. Then, once the fork is in the dominant hand, it's easy to take a few bites without changing back. But it's bad manners to cut the food into many small pieces in Britain.

Eating on the go is common in the United States, where people eat their food quickly. However, in Britain, people don't just eat. They sit down to have a relaxing meal, chatting with their beloved ones and enjoying their food. They also think it is the perfect time to teach their kids good manners.

You'll probably never enter a British person's home without the host asking if you want a cup of tea or water. Offering a drink is good manners in the United States, too. But the host often forgets it.

Englishmen are generous with how many times they say "sorry", "please", and "thank you", which are some basic manners. For example, when ordering at a restaurant, don't just say "I'll take a hamburger", but show the server some respect and ask, "May I have a hamburger?"

C

Don't you love it when you have a bit of free time? After school or work, during the weekends, or even in your lunch break, it's great to get a little time for yourself. In general, "free time" is **luxurious**; it's "free" time because it's time spent not working, studying, or running things. To be honest, the beauty of free time is that you don't have to do anything; you can be free to choose what you want to do. When I have free time, I love to go for a run, draw, or watch some of my favorite TV plays.

I've just had a whole month of free time at home with my parents. I finished working as a teacher at the end of April, and I was just about to start a new job in a publishing company. However, this month was not all that I thought it would be. Before I came home, I had plans to get healthier, do more about art, read more and so on. And guess what ... NONE of it happened. I was lazy, I watched TV all day and I ate too much chocolate.

I've discovered that when you have too much free time, it just turns into "time", and trying to pass that time becomes boring. It becomes much more difficult to make yourself do interesting things. It's a strange thing, but I think it's the same for most people. When you only have a little bit of free time, it becomes more valuable, so you can use it well, but when you have too much free time, you simply waste it.
