65. Where does the passage probably come from?

A.A health report   B.A tourist map   C.A science magazine   D.A medical dictionary

C

Computers are very important to modern life. Many people think that in the future computers will be used in lots of everyday life. It is thought that we won't have to go shopping because we will be able to get most things which are sold in shops on the Internet. There will be no more books because we will be able to get all texts from computers. The Internet will be used to play games, see films and buy food. Most telephone calls will be made by computers, too.

Some people are glad about these new ways of shopping and communicating. Others do not think that computers will replace our old ways.

Let's look at books, for example. Some people think that one day we will not read books made of paper. Instead, we will buy and read books using computers. We will read texts on small pocket computers. The computers will keep many different books in them at the same time.We won't need to turn lots of pages and paper will be saved. Computerized(计算机化)books will be used more and more.

Is Internet shopping such a pleasure as going to the shop? Many people say it is not. It is a pleasure to go in to shops and look at things you want to buy. It is also unlikely that many people will want to read large texts on our computers. Because paper books will perhaps be more friendly. Maybe computers won't change these two habits.

66. In paragraph1, it is thought people will use computers for _____.

A.playing games, shopping and making telephone calls

B.making telephone calls, having meals and seeing films

C.seeing films, buying food, and going for holidays

D.playing games, making telephone calls and seeing the doctor

67. Which reason for using computerized books is NOT said in the passage?

A.Computerized books won't be very expensive.

B.Computers can keep many different books in them.

C.We won't have lots of pages.

D.We won't need any paper.

68.Paragraph 4 tells _____.

A.about the old and new ways of shopping and communicating

B.if the Internet will change our habits

C.about computerized books

D.about future uses of computers

69.The title for this passage is _____.

A.Computers will Replace Shops and Books

B.Computers will be Used in the Future

C.Computers will Do Everything for Man

D.How Computers Change Our Habits

70.According to the writer's view, which is right?

A.Computers will replace everything completely in our daily life in the future.

B.Computers will not be used at all in our daily life in the future.

C.Computers will not be used in shopping in the future.

D.Computers will bring more and wider usage in our daily life in the future.

D

Do you know 5G? It is the fifth generation (代) of mobile network technology. These new networks are coming.

China just issued commercial licenses (发放商用牌照) for 5G on June 6,2019. This means that China's telecom companies were soon able to offer 5G networks for mobile phone users.

Each mobile network generation is faster and more powerful than the one before it. 1G let us talk to each other. 2G let us send messages. 3G gave us data and the Internet. And 4G made all of these things faster. What's special about 5G?

5G has a very short **delay** between sending and receiving information. Now, 4G takes about 100 to 200 milliseconds (毫秒) to send and receive data. But 5G will get it down to 1 millisecond or less—this is almost real time.

This big change will not only make our mobile Internet faster, but also deeply change our lives. Read on to find out how.

5G+entertainment (娱乐)

5G networks are about 100 times faster than 4G. This means you can download a movie in seconds using 5G.

Also, virtual reality (VR) games will become more popular with 5G. The short delay of 5G will make the games feel even more real.

5G+transportation

5G will also bring us safer self-driving cars. These cars can send signals(信号)to each other. They also talk to traffic lights and road sensors(传感器). 5G will allow cars to react even faster than human drivers.

5G+smart homes

5G also makes the Internet of things possible. Internet of things is a large network that connects everything to the Internet. Smart homes are part of it.

For example, your toaster can automatically (自动地) start making breakfast after your alarm rings. And if its sensor feels the air becoming dry, a smart sprinkler could water your plants by itself.

71. What's the writer's purpose in writing the third paragraph?

A. To explain 5G is the best of all.

B. To share his knowledge about 5G.

C. To encourage people to use the new network technology.

D. To show the development of mobile network technology.

72. What does the underlined word "**delay**" in Paragraph 4 probably mean ?.

A. 延时   B. 暂停   C. 断开   D. 卡顿

73. 5G will change people's lives in many ways EXCEPT _____.

A. entertainment   B. transportation   C. smart homes   D. health care

74. Which of the following is NOT true according to the passage?

A. We can download a movie faster with 5G.

B. Human drivers can send signals at traffic lights.

C. The plants can water themselves by a smart sprinkler with 5G.

D. 5G is faster and more powerful than 4G.

75. What's the main idea of the passage?

A. Mobile phone users can use 5G networks.

B. Each mobile network generation has their own advantages.

C. 5G will change our lives in many ways.

D. 5G will bring us safer self-driving cars.

VI. 选词填空 （10 分）

A. 阅读短文，从方框中选择适当的单词填空 （每词限用一次）

pleased	up	noise	before	rang

Miss Grey lived in a small house. She was old and did not like 76._____ at all, so she was very 77._____ when her noisy neighbour moved out. VII. 阅读理解七选五　根据短文内容，从短文后的选项中选出能填入空白处的最佳选项。选项中有两项为多余选项。（5 分）

What do we really mean by being open? 86._____ It is important in letting others get to know how we think and feel. In this way we will be understood and accepted by others. If we aren't open with others, we won't fully believe in ourselves or others.

87._____ First, make your outside behavior the same with your inside feelings and thoughts. Second, share how you really feel about something instead of just opinions. Third, try to change your

questions into statements(陈述) and talk in the first person so that people will understand you more easily.88_____Finally, try not to say,I don't know." This usually means I don't want to think about it anymore.

Remember also that it is not suitable to be open with everyone in every situation. You may want to be more open with close friends, but not with people you don't know well, 89._____Besides, some people may not be used to too much openness. 90. _____

In all, being open is a good way or us to get on well with other people, but we'd better keep the balance between being open and not being too open.

A. because you are not sure how someone else will use what they know about you.
B. Here are a few ways for you to be more open.
C.We should be open to all the people around us.
D. Being open is a kind of invitation to others to come in, to speak and to share.
E. Opening to others is very important in making real friends.
F. If we say everything we feel or think to them,they will feel very uncomfortable at times.
G.For example, you might say ,"I feel happy that you're here," instead of "Are you glad that you're here?"

VIII. 书面表达（30）

A.根据每小题所提供的图画情景，完成下列句子。（10分）
