#### From hobby to career

My name is Patrick. I'm a TV reporter. When I was eight, my father gave me a book about stars. That was the beginning of my lifetime hobby. I often go outside with my dad on clear nights and look at the sky. There are thousands of stars like beautiful diamonds shining in the sky. In different seasons, I find different groups of stars. Sometimes, I see stars flying across the sky. How amazing they are!

I am so interested in learning stars. I read books and search the internet about stars. I see films about stars and space. Now, I have good knowledge about stars. I make it into my career. I'm a reporter of a TV programme. I report the weather and tell people about the stars in a lively way. I am proud of my TV programme. It is very famous in our country.

I believe that you can turn your hobby into your career, too. You can make your dream come true. You just have to enjoy yourself and work hard.
