### Text 12

Many people have to work on the weekend. Some people do not mind. But others think it is terrible.

One man thinks that working on the weekend can be dangerous. He is Graham Coates. Mr. Coates works in an office in Brighton, England. One Saturday, he went to the office to do some work. When he got on the elevator, it stopped between floors. Mr. Coates couldn't get out. He shouted but no one heard him. Then he remembered that it was a holiday in England. No one was going to come to work until Tuesday.

There was nothing for Mr. Coates to do but wait. With nothing to eat or drink, Mr. Coates ended up sleeping for most of the time.

Early on Tuesday morning, the workers of the company came to work and found the elevator was not working. When the elevator was opened, Mr. Coates came out, cold, weak, and tired. He had been in the elevator for 62 hours!

书面表达：One possible version:

Dear Paul,

Thank you for your email. Now let me tell you something about my favorite teacher.

Wang Lin, my favorite teacher, is from Shanghai, and she is around 30 years old. She teaches me English. She has long black hair and she always wears a pair of glasses.

She is strict with us in our study, so all the students are well-behaved in her class. However, she can get along well with all the students because she is very kind and patient. She will help us to deal with the problems when we have difficulties. We all like her lessons a lot. That's because she is very creative. Her teaching style is quite different from that of the others. She prepares her lessons well and corrects our homework carefully. In class she always encourage us to think hard and develop our ability to study on our own.

In a word, I think she is one of the best teachers in our school. We all love her and respect her.

Yours,

Li Hua
