B) Possible version;

Pine Trees

We can find pine trees in almost every part of China. People grow pine trees in cities because they are always green and they can make the environment more beautiful.

Pine trees are very strong. They can grow in difficult environments. Pine trees have very long lives. Some of them live more than 1,000 years.

Pine trees are useful. We can not only use them to make furniture, but also use them in Chinese medicine to fight against some diseases.

In a word, we will plant some pine trees on Tree-Planting Day and let's make our world a better place to live in for you and me.
