Good afternoon everyone. This is the first meeting for our community. You may wonder if one person can make a difference to a community. My answer is "Of course. Every person can." I'll give you some examples. **Firstly**, some people often throw rubbish in the places where the cleaner seldom reach. This will make our community look dirty and even cause pollution. We should get together to collect the rubbish twice a year. **Secondly**, in our community, some of the elder people are too old to go outside, we can go shopping for them and sometimes read for them. **At last**, there is no reading club in our community. Why not start one? We can get together to share what we have just read. And the club is a good place to welcome newcomers to our community.

Students need to have a healthy school life. What can we do to make it? Here I've got some ideas to share with you.

First, it's important to keep our school clean. For example, we can clean the desks and floor every day, because good environment is helpful to our study and health.

Second, listen to your teachers carefully in class. Try to use all the time to study in class. You'll find it's a scientific way of studying.

Third, we'd better look after ourselves well, such as washing hands in time and wearing masks when it is necessary.

Fourth, it's good to do some sports like running, playing basketball after class. You'll have a good time to play sports with your classmates at school.

Finally, if we always get on well with each other and keep happy, we'll enjoy a happy and healthy school life.

I hope they will work for you!
