### D. 听填信息

I'm Megan and I'm 14, but I'm 1.83 meters tall. All my friends are shorter than me and I'm the tallest person in my family. Everyone thinks I'm older than 14. On the bus, they think I'm an adult. When I first started secondary school, people were not as friendly and helpful as those at primary school. But it's easier now and I've got lots of friends. Clothes are always a problem. I usually buy my clothes at a shop called Long Tall Sally, but they're more expensive than ordinary clothes. Shoes are even worse! The most difficult thing is that I'm always different from other people. I just want to be the same as everyone else. There are advantages, though. I play basketball and I'm the best player in my school.
