One possible version:

My best friend is Li Ming. We are in the same class. He is as old as me, but he is taller and stronger than me. Both of us have black eyes and black hair, but his hair is shorter than mine. As for hobbies, we have something in common in some ways. I like the friends who have the same hobbies with me. Both of us like sports. We often exercise after school. But he is more outgoing and better at sports than me.

Besides, we both like collecting stamps. We often exchange our stamps with each other. Finally, I think I'm a little smarter than him. Most of my subjects are better than his, so I often help him with his study and learn from each other.
