Dear Merry,

These days, I have problems with my study. In school I can't listen to teachers carefully because I always feel tired and sleepy. I don't spend time with friends after class either, because I think it's a waste (浪费) of time. I even miss writing some answers in the test.

At home, I can't finish my homework every night. My parents don't let me stay up. So I have to get up early the next morning to finish it. Lately, I even get a bad headache.

How can I solve these problems?

Liu Ya

---

Dear Liu Ya,

When you have problems listening to teachers carefully in class, you can ask your teachers or deskmates to remind (提醒) you often. Then spending time talking with friends can make you happy. It's not a waste of time.

As for homework, when it's hard to finished, one thing you can try is setting goals for yourself. Ask your parents to help you. You must take a break if you don't feel well. You might be surprised but a short rest can help you get more done! Lastly, if you don't worry and have enough sleep, your headache will leave you.
