Rosen was always in a good state and saw things from different sides. He made his living by playing the guitar in a street. He often said, "When the sun sets, it will rise again. When the sun rises, it will also set. That is life."

Rosen loved cars, but it was impossible for him to buy one himself. When he was with his friends, he always said, "If only I had a car!" His eyes were full of hopes. Someone said to him as if it was joking, "Go to buy a lottery (彩票) ticket. If you win, you'll have a car!"

So he bought a two-dollar lottery ticket. Perhaps with all his luck, Rosen won the lottery with \$2. One day, however, Rosen left the car outside his room, and half an hour later, he found it was stolen when he went out. When his friends heard the news, they worried that he could not stand it. They thought that he loved his car so much, but the car he had bought for tens of thousands of dollars had gone in the blink (眨眼) of an eye. VIII. 任务型阅读 (共 5 小题; 每小题 2 分, 计 10 分)

阅读下面短文, 按要求完成 66 ~ 70 题。

It's lunchtime. You rush into the dinning hall. You've only got 20 minutes to eat, but you also want time to relax with your friends before afternoon classes. So you quickly get some food, and eat half of it. What happens to the rest of the food on your plate? It may greatly go right into the waste.

Is it common in your school? The answer is yes. Waste happens everywhere in the school. Some students often forget to turn off the lights when they leave the classroom. Others only use the one side of the paper when they do their homework. They say they can afford these things. But that's not a right action.

Waste can bring a lot of problems. Although China has rich resources (资源), we are short of something, such as fresh water. It is reported that we will have no coal or oil in 100 years. So if we go on wasting resources, we will use nothing in the future.

We should say no to the people who waste things. Everybody should stop wasting things. In our life, we can do many things to prevent waste. For example, turn off the water taps (水龙头) timely; don't order more food than we need, and so on.

Little by little, everything will be changed. Waste can be stopped one day. And our world will become more beautiful. So let's save more resources from now on!
