How to fight against COVID—19(新冠病毒)? We choose some books to help you. The books were translated into 13 languages, including Japanese, French and Russian. They are convenient for readers to enjoy.

Virus, Virus, You Cannot Scare Me! (Writer: Mu Xiangzhen)

The book makes parents and children be able to learn—in a fun way—about how viruses(病毒) spread and what people can do to protect themselves. It tells children not to fear about viruses. Besides, it also introduces the idea of getting well with nature, and hopes children can protect wild life and the natural environment.

A Special Spring Festival (Writer: Guo Jing)

This book pictures children's special Spring Festival in China during the outbreak of COVID—19. It tells a story of a common family in China. It tries to answer the child's question “Why can't I be allowed to play outside?” It tells the child what COVID—19 is, how it spreads, and how we can protect ourselves from it. The pictures show love between family members, friends and everyone.

Ten Tips to Fight Monsters (Writer: Dong Ruihan)

Dad leaves 10 tips to help us fight the virus. Who will win the war? The story will gently teach children how to prevent the disease(疾病) in a language that they can easily understand. It will help kids remain calm in the hard time, and encourage them to help family members to prevent the disease.

A Brief History of Viruses for Children (Writer: Changsha White—flag Dolphin Children's Book Workshop)

This storybook tells the beginning of the virus, so the readers can understand the history of the virus easily. Do you know 5G? It is the fifth generation (代) of mobile network technology. These new networks are coming.

China just issued commercial licenses (发放商用牌照) for 5G on June 6, 2019. This means that China's telecom companies will be able to offer 5G networks for mobile phone users.

Each mobile network generation is faster and more powerful than the one before it. 1G let us talk to each other. 2G let us send messages. 3G gave us data (数据) and the Internet. And 4G made all of these things faster. What's special about 5G?

5G has a very short delay (延迟) between sending and receiving information. Now, 4G takes about 100 to 200 milliseconds (毫秒) to send and receive data. But 5G will get it down to 1 millisecond or less-this is almost real-time.

'This big change will not only make our mobile Internet faster, but also deeply change our lives. Read on to find out how.

5G + entertainment (娱乐)

5G networks are about 100 times faster than 4G. This means you can download a movie in seconds using 5G.

Also, virtual reality (VR) games will become more popular with 5G. The short delay of 5G will make the games feel even more real.

5G + transport

5G will also bring us safer self-driving cars. These cars can send signals (信号) to each other. They also talk to traffic lights and road sensors (传感器). 5G will allow cars to react (反应) even faster than human drivers.

5G + smart homes

5G also makes the Internet of things possible. Internet of things is a large network that connects everything to the Internet. Smart homes are part of it.

For example, your toaster can automatically (自动地) start making breakfast after your alarm rings. And if its sensor feels the air becoming dry, a smart sprinkler (洒水器) could water your plants by itself.

- () 27. What's the writer's purpose in writing the third paragraph?
- A. To explain 5G is the best of all.
B. To share his knowledge about 5G.
C. To encourage people to use the new network technology.
D. To show the development of mobile network technology.
- () 28. Which of the following ways is not mentioned that 5G will change people's lives?
- A. Health care B. Entertainment. C. Transport. D. Smart homes.
- () 29. What will people do possibly with 5G according to the passage?
- A. Download a movie in minutes.
B. Put everything onto the Internet.
C. Make self-driving cars safer.
D. Make food more easily and faster.
- () 30. What's the main idea of the passage?
- A. 5G will change our lives in many ways.
B. Mobile networks are changing for better.
C. 5G will make the Internet of things possible.
D. 5G networks for mobile phone users are coming.
