Possible versions:

Dear students,

It is my great honor to speak here. Today, I am going to talk about how to protect the Earth. The Earth is our beautiful home. There are forests and rivers, mountains and fields. There are many different plants and animals on Earth, too. The Earth provides us with air, water and food. Therefore, it is very important for us to protect the Earth and let me share some ways with you.

First, we can take part in Earth Hour and turn off the lights for one hour. Besides, we should stop throwing away rubbish everywhere. In addition, we can plant more trees to make the Earth a better place.

Let's try our best to protect the Earth. I hope everyone can work together.
