Everyone has his own dreams, and dreams are different from one to another. Some people want to be scientists, some people want to be bosses, and others choose to be rich. A survey(调查) shows that 30% university students want to have their own companies.

The dream is strength (力量). The strength can bring us a lot of wonders.

The dream is beauty. Maybe you can see the things full of magic and maybe you will be touched by your own. Have you dreamed of being a queen? Have you dreamed of being a successful person? As we all know, all the things in the dreams are not real. The world is so real that all the dreams seem weak. But why should we have our life with dreams? Because no dream, no hope. If nobody dreamed of flying, we would never know the plane. Some people said that the world would be in darkness if there wasn't Edison. He ever had a dream of keeping the sun in the sky day and night. And he really lightens (点亮) our life. So what will happen if everyone has a dream and make it come true? There is nothing impossible if you do.

76. What do 30% university students want to do in the future?

77. What can the strength of dream bring us?
