You may have heard of therapy(治疗) dogs or even therapy pigs, but what about a therapy horse? Peyo, the 15-year-old horse, spends his days doing the rounds at Calais Hospital in France. He helps provide comfort to patients and their families.

Peyo used to train for giving shows. One day, his owner, Hassen Bouchakour, happened to discover that his horse had a different, magic ability. After shows, Peyo would pick people out of the crowd and remain close to them.

Bouchakour later realized that his horse was instinctively choosing sick people. He decided to

use Peyo's special gift to bring peace and comfort to those who most needed it.

The pair has been began volunteering(志愿服务) at Calais Hospital since 2016.The horse—now called “Doctor Peyo”—tells his owner which patients need attention by standing near them and raising one leg.The horse is especially useful when patients are nearing the end of their lives.Having Peyo by their side brings them happiness in their final moments and helps them have a more peaceful passing.

Since beginning his life as a therapy horse, Peyo has helped more than 1,000 patients.Not only does Peyo help the sick, but he's also a true friend to his trainer. “Peyo is my life friend,” Bouchakour says.

C

Sea glass can be found on beaches.It is pieces of glass that have been smoothed over time by the action of water and sand.As pieces of glass lie in salt water and get thrown against the sand by the sea water for many years, they finally become smooth.

Sea glass is glass that's been dropped in the sea.It often comes from bottles, but it might come from old dishes, window glass or other common objects.The most common colors of sea glass are green, brown, blue and clear.These colors usually come from bottles of popular drinks, like juice.The rare(罕见的) colors are gray, pink, black, yellow, red and orange.These colors come from rare objects, such as old dishes, wine bottles and boat lights.

The sea does a great job of turning pieces of glass into treasures for people to find along beaches.In fact, searching for sea glass is a popular hobby for thousands of people.

Today, sea glass can be harder to find than it was in the past.Not only are more people searching for it and collecting it, but plastic(塑料) has taken place of many glass products.What's more, there also appears to be less littering today than there was in the past.

63.Where does the blue sea glass usually come from?

A.A boat light.

B.An old dish.

C.A wine bottle.

D.A juice bottle.

64.What is popular with the help of the sea?

A.Selling juice.

B.Collecting sea glass.

C.Walking on the beach.

D.Searching for treasures.

65.How many reasons for less sea glass are mentioned in the last paragraph?

A.One.

B.Two.

C.Three.

D.Four.

66.What is the purpose of the text?

A.To share ways to find sea glass.

B.To introduce a special hobby.

C.To call for environmental protection.

D.To tell something about sea glass.

D

There are many different stories about the history of the umbrella.According to an old Chinese story, the umbrella was invented by Luban's wife about 3,000 years ago.

Luban was the most famous craftsman(工匠) in ancient China.One day, Luban and his wife

were walking by the West Lake.They were enjoying the beautiful sights when it suddenly started to rain heavily.After they returned home, they were already wet all over.

“It’s terrible to get wet in the rain,” Luban’s wife said.“Can you make something to keep the rain out?” The craftsman replied, “I can build some pavilions(亭子) along the West Lake.You can hide under them when it rains.”

“But pavilions can’t move,” Luban’s wife shook her head.“Is it possible to make a movable pavilion that will always follow people when they walk?” she thought about this question for a long time.

One day,Luban’s wife saw some children playing in the rain.Each child was holding up a large lotus leaf(荷叶) to keep out the rain.She got a good idea from that.The next day, she made the first umbrella in ancient China.

67.What happened when Luban and his wife were walking by the lake?

- D.A lotus leaf.

E

All living things on Earth need water.Land animals have to drink water to keep it in their bodies.But do fish need to drink water, too?

There’re two kinds of fish.One is called freshwater fish.They live in places like lakes and rivers.The other is called saltwater fish and they live in the sea.

Water always moves from places where there is less salt to places where there is more salt.Freshwater fish have more salt in their bodies than the water around them does.So the water goes directly into their bodies through their gills(鱼鳃).These fish don’t really have to drink water through their mouths like we do.

Saltwater fish, on the other hand, have less salt in their bodies than the sea water does.They often drink a lot of sea water.If we drink too much sea water, we will become very thirsty and even die from having too much salt in our bodies.But saltwater fish are different.They have a special system in their bodies.This system can take salt from the water they drink and put it back out into the sea.In this way, the salt in the fish’s bodies stays in balance(平衡).

70.How do freshwater fish drink water?

- A.Through their gills.
- B.Through their mouths.
- C.With a special system.
- D.With a balanced body.

71.What does the underlined word “it” refer to?

- A.The fish.
- B.The salt.
- C.The water.
- D.The system.

72.What is the fourth paragraph mainly about?

- A.What saltwater fish like eating.
- B.How saltwater fish drink water.
- C.Why saltwater fish have salt in bodies.
- D.Where saltwater fish live in the sea.
