Many children don’t like doing chores. When it comes to their turns to do chores, they always ~~drag~~ *their feet* (故意拖沓). They think it’s mothers’ job to do chores and they should spend their time on schoolwork or something more important. Also they think doing chores is too boring. Luckily, you can help your children to make the boring chores enjoyable.

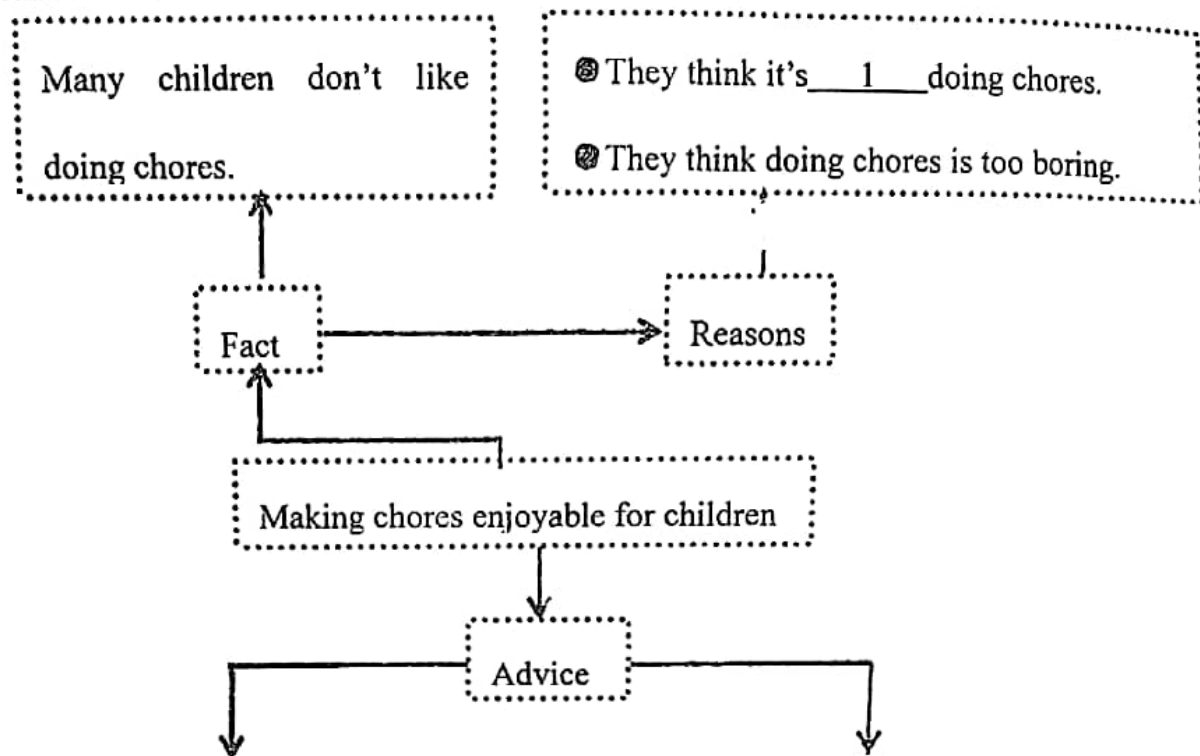

A simple and great way to make cleaning great fun is to do some of it together. Play some beautiful music while you are doing chores. Then you won’t feel bored.

If your kids like surprises, write chores on ice-cream and have each child pick one. Tell them they can change their picks if each of them agrees. In this way, they will have a feeling that they’re making a choice (选择).

Turn “kitchen time” into a party. Let one child be a cook and another be a DJ. The cook chooses what he or she would like to help make for dinner. ~~The DJ~~ chooses to play some music. Everyone can dance around the kitchen while preparing dinner or cleaning up the kitchen later.

One of my friends was trying to get her kids to help out around the house, and

someone advised her to give the kids some things like candies or toys as *rewards* (奖励). The plan worked like magic. However, rewards usually don't work for long because kids will be bored with doing the same chores all the time. At this time, give them some difficult chores. If they're already used to helping clean the *cage* (笼子) of the pet, make it harder by having them clean it all by themselves. Then, ask them to clean it faster.

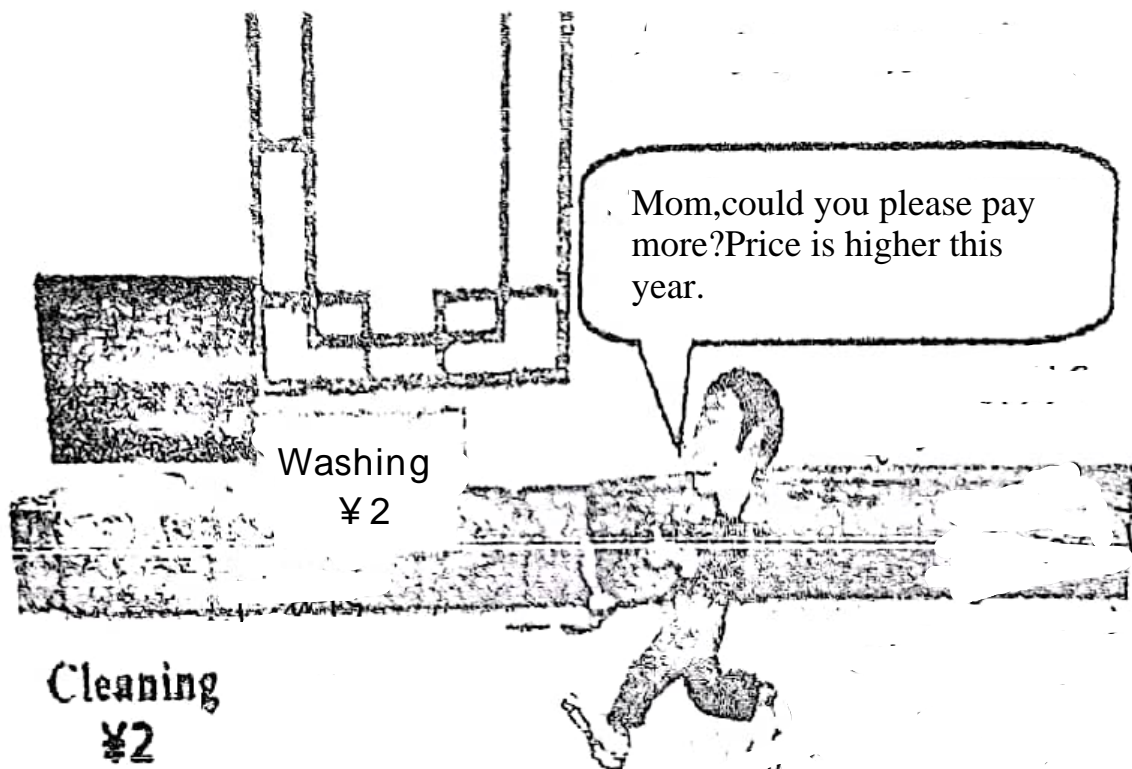

Work as a <u>2</u> .	Make cleaning together and play some beautiful music.
Make a surprise	Make children <u>3</u> by asking them to pick the ice-cream on which you write chores and allowing them to change their picks.
Make it playtime	Turn "kitchen time" into a party and ask children to play <u>4</u> .
Increase the <u>5</u>	Ask children to do chores alone or faster.
