One possible version:

The importance of exercise

Everyone hopes to live happily in the world. Exercise is important to a happy life. My favorite sport is basketball because it is very exciting. I play basketball three times a week. I think everyone needs to exercise, especially teenagers. On the one hand, doing exercise helps us keep a healthy lifestyle. A person who takes exercise regularly will keep fit. What's more, exercise can make us confident. If we usually take exercise with our friends, we will be close to them. In my opinion, exercise can make our life more colorful. Nothing is more important than it. It'll certainly help us live longer and more healthily.

Joe is a singer. Every year he visits a small town called Greenest in January and July and he sings for people there. One summer, he went there by train again. On the first day, he planned to walk in the mountains, but it rained. So he decided to go to the only cinema in town and watch a movie. There were only nine people in the dark cinema. When people saw him, they gave him a warm welcome. Joe was happy, "It seems that people here all know me and they're friendlier than I thought. They must like my songs." Then a young man said to him, "The cinema shows the movie only after ten people buy the tickets. There are ten now, so the movie will be on soon."
