The biggest thing we can do to help endangered animals is to take care of our world. Maybe tigers and leopards(豹) don't live where you do, but many animals do. They need protection. We can protect animals by taking care of our environment.

**Recycle.** We need to make sure that we are recycling plastic, tins(罐), and paper so that we won't use up our world's natural resources(资源). Every time paper is made, or a bottle is made, resources from our earth are used. Some of these resources are found where animals live, and to get them, we need to disrupt the animals' living places.

**Reduce.** By reducing what we use, we can also protect our earth. One way to do this is to write on both sides of a piece of paper. Also, when you leave a room, turn off the lights.

**Reuse.** We should also choose things that can be reused, like a reusable water bottle, rather than a prepackaged(预制并包装好的) water bottle. By using reusable bottles for our water rather than buying bottled water, we prevent many of our resources from being used up. Another example is to use towels, rather than paper towels.

**Plant a tree.** Many animals use trees for protection or even food. All big trees began as small trees. The only way to make sure that there are going to be big trees in the future is that there are small trees today. You can achieve this by planting trees in your neighborhood.

- ③ Raise money to help endangered animals.
- ④ Stop eating all kinds of meat.
- ⑤ Plant as many trees as we can.

Strawberries look nice, but a light pressure can make them out of shape. Nowadays, there are many young people who are just like strawberries. They easily break down when they face difficulties. They don't know what to do when they are in trouble. They have a common name- strawberry kids.

Why are many students so easy to break down? Parents and schools are a main reason. Parents do almost everything for them in their daily life, while schools care more about their grades instead of developing their personality(个性).

Liu Yue, 13, is from Fujian. His mom hardly criticizes (批评) him and he always feels good about himself. When a teacher criticized him strictly, he felt surprised and sad. He began to doubt his ability.

Students should do something to make themselves mentally(精神上) strong. An expert said, "When you are in trouble, don't ask for help too quickly. You should try to deal with problems first by yourself. I also advise you to take an active part in sports and social activities. That can make you mentally strong."

Growing up is not just a happy process (过程). Pains also go along with it. The most important thing is to face the pains bravely and learn from them.

# D

The word “zhiyin”, which means close friends who can understand you very well, comes from the story of Yu Boya and Zhong Ziqi in the Warring States Period(战国时期).

Boya was good at playing guqin. One day, he was playing music on his way home on the boat. To Boya's surprise, Ziqi, a woodcutter (樵夫) who happened to pass by, could understand exactly what he wanted to express through his music. After a long talk, they became good friends. Since Boya had to return to his state, they agreed to meet again in the next year.

Unluckily when getting back to visit Ziqi, Boya heard that his friend had died from a disease. Boya was so sad and in front of Ziqi's tomb(墓), he played again the music he had played when they first met. People were deeply moved when they heard the music because they thought they heard the rivers and mountains crying. When finishing playing, Boya broke his guqin into pieces. From then on, Boya never played again.

People in the Song Dynasty (朝代) built the Guqin Tai in Hanyang, Hubei Province in memory of the deep friendship between Boya and Ziqi, which became an important part of the local culture.

Zhiyin culture has new development in the new period. The famous ancient Chinese classical music piece Gaoshan Liushui, also known as High Mountain and Flowing Water, was performed during the G20 Summit (峰会) in Hangzhou, Zhejiang Province in 2016, which was developed from this story.

The musical performance won praise from guests, because it not only showed the beauty of traditional Chinese culture, but also expressed China's wishes to develop its friendship with people from around the world. Besides, during COVID-19, Wuhan, as the city once hit hardest by the disease in China, received masks and other things from its sister cities such as Japan's Oita. They stood together and looked out for each other.

52. How did Boya feel when he found Ziqi could understand his music?

- A. Excited                      B. Satisfied                      C. Surprised

53. Ziqi did NOT meet Boya again because \_\_\_\_\_.

- A. he was seriously ill                      B. he met another friend                      C. he was dead

54. From Paragraphs 2-3, we can know that \_\_\_\_\_.

- A. Boya and Ziqi only met each other once  
B. Boya usually played guqin in memory of Ziqi  
C. Boya and Ziqi became close friends as soon as they met

55. Which of the following can describe the friendship between Boya and Ziqi?
