“Today I will give you a special test,” said the English teacher with a smile on

his face.

All the students sat up straight and waited for the test to begin. The teacher began to give the test papers to all the students. After he finished handing out the test papers, he asked them to begin.

The students were very surprised to see that there was not a question but a black dot (圆点) in the center of the paper. The teacher noticed the students' surprise and said, "I want you to write about what you see there." At the end of the class, the teacher took all the students' answer sheets and read the answers. All of them described the black dot. After reading all the answers, the teacher said, "Here everyone only paid attention to the black dot, but no one wrote about the white paper." The whole class listened silently, because they were afraid to fail the exam. Then the teacher said, "Don't worry about your marks for this test. I just want you to think about our life. The white paper is like our whole life and the black dot in the center of the paper represents problems in our daily life."

Our life is a gift given to us by God, with love and care. However, we just pay attention to the problems like illness and poverty, and never see happy things in our life. So we should try to solve our problems and enjoy each moment life gives us.

19. What was in the center of the paper?  
A. a white dot      B. a black dot      C. a question      D. a gift
20. Which of the following is wrong about the test?  
A. There was a black dot in the center of the paper.  
B. Nobody paid attention to the black dot.  
C. No one wrote about the white paper.  
D. The students were very surprised when they saw the papers.
21. What did the teacher mainly want to tell his students?  
A. Our life is a gift given to us by God.  
B. The black dot doesn't mean any problem in our life.  
C. Don't worry about the marks for the test.  
D. We should solve our problems and enjoy each moment in life.
22. What's the Chinese meaning of the underlined word "poverty" in the last paragraph?  
A. 快乐      B. 富有      C. 贫穷      D. 幸福

Yuan Longping, a great scientist, is the first person to develop a kind of hybrid rice(杂交水稻) which helps fight hunger in China.

Food was a big problem in China in the past. This was because China had 22 percent of the world's population, but only 7 percent of its farmland. In the 1960s, China suffered serious hunger. Millions of people died because they had no food. As an agronomy(农学) teacher, Yuan was very sad to see this. "How can I help them

have enough food?" he thought. He decided to work on a kind of hybrid rice. It has a high output.

At that time, other scientists didn't think hybrid rice was worth studying. But Yuan and his team worked on it every day. They took very good care of their rice seeds. At last, in 1973, they grew a new kind of hybrid rice. This rice is strong. Farmers can grow it in many different kinds of farmland and also in bad weather. It can also fight disease. Its output(产量) was much greater than common kinds of rice. With the new kind, about 70,000,000 people could have food every year.

Yuan solved the food problem in China. He hoped to grow rice in the sea before he retired. His lifelong wish was to help people all over the world have enough to eat.

"Everyone is like a seed - we should try to grow into good people," Yuan once said. Let's remember this ordinary but great man—Yuan Longping.

23. Why was food a big problem in China in the past?
- A. Because farmers didn't grow nice.
  - B. Because farmers didn't have rice seeds.
  - C. Because China had no money to buy plenty of food.
  - D. Because China had a large population but a little farmland.
24. How did Yuan Longping help people have enough food in China?
- A. He discovered another kind of delicious food.
  - B. He borrowed enough food from other countries.
  - C. He developed a kind of hybrid rice with his team.
  - D. He started being an agronomy teacher.
25. Which of the following is NOT mentioned about the new kind of hybrid rice?
- A. It is able to fight disease.
  - B. It is grown across the world now.
  - C. Its output is much higher.
  - D. It can be grown in different farmland.
26. What was Yuan Longping's lifelong wish?
- A. To help people all over the world have enough to eat.
  - B. To grow rice in the sea.
  - C. To be a good agronomy teacher.
  - D. To help people in Africa.

What is 5G? It is the fifth generation of mobile network technology. China's telecom companies has been able to offer 5G networks for mobile phone users since 2019.

Do you know the development of mobile network technology? Each mobile network generation is faster and more powerful than the one before it. 1G let us talk

to each other. 2G let us send messages. 3G gave us data and the Internet. And 4G made all of these things faster. What's special about 5G?

5G has a very short delay(延迟)between sending and receiving information. Now, 4G takes about 100 to 200 milliseconds(毫秒)to send and receive data. But 5G will get it down to 1 millisecond or less-this is almost real-time.

This big change will not only make our mobile Internet faster, but also deeply change our lives. Read on to find out how.

**5G + entertainment** 5G networks are about 100 times faster than 4G. This means you can download a movie in seconds using 5G. Also, virtual reality(VR) games will become more popular with 5G. The short delay of 5G will make the games feel even more real.

**5G + transport** 5G will also bring us safer self-driving cars. These cars can send signals to each other. They also talk to traffic lights and road sensors(传感器). 5G will allow cars to react even faster than human drivers.

**5G + smart homes** 5G also makes the Internet of things possible. Internet of things is a large network that connects everything to the Internet. Smart homes are part of it. For example, your toaster can automatically start making breakfast after your alarm rings. And if its sensor feels the air becoming dry, a smart sprinkler could water your plants by itself.

27. What's the writer's purpose in writing the second paragraph?

- A. To explain 5G is the best of all.
- B. To share his knowledge about 5G.
- C. To encourage people to use the new network technology.
- D. To show the development of mobile network technology.

28. Which of the following ways is not mentioned that 5G will change people's lives?

- A. Health care
- B. Entertainment.
- C. Transport.
- D. Smart homes.

29. What will people do possibly with 5G according to the passage?

- A. Download a movie in several minutes.
- B. Put everything onto the Internet.
- C. Bring us safer self-driving cars.
- D. Make food more delicious.

30. What's the main idea of the passage?

- A. 5G will change our lives in many ways.
- B. Mobile networks are changing for better.
- C. 5G will make the Internet of things possible.
- D. Everyone likes using 5G networks for mobile phone.

After five days, the first son filled his box with the company ledger (账本). "There's nothing better than this. It's the best thing to 56 our success," he said.

"Good" the father said. "What about yours?" He turned to the second son. "The box was too small to hold the things I wanted to put in it, so I changed it for a 57 one," said the second son.

"What did you put in it?"

"Many of the things you've got all these years." Answered the son.

"Oh," the father said unhappily. Then he said to his youngest son, "Let me see your box."

"My box is 58."

“Didn’t you find anything valuable in our company?” asked the father. “Sorry, I just couldn’t put the most valuable thing I found in a box. What size box can 59 the loyalty(忠诚)of our workers and customers? How big a house would we need to gather all the workers of our company? And 60 can I put the love of you and my mother inside a box?” answered the son.

It was clear what decision was made that day.

## 七、阅读表达(共5小题, 计10分)

阅读短文, 根据要求完成文后的题目。

Do you have the experience of taking a class online? Today, taking a class online becomes a more and more popular way of learning for not only students but also many other people on work. However taking a class online is quite different from sitting in a classroom. There aren’t usual class time and in-person interactions(互动), so it can be difficult to focus on the material and homework. Below are useful online success strategies(策略) to use when taking an online course for the first time, or to review even if you’ve taken online courses before.

### **Making Time**

Set a specific(明确的)study time each week, and make this a time that you honor and commit to every week.

### **Having Your Learning Space**

It is very important for taking a class online to have a quiet study space with reliable(可靠的)internet. Maybe this is your home, or a relative’s home. It could be a public space, such as a coffee shop. Whatever it is, make it work for you, and try to put your heart into study. This will be your “classroom”.

### **Thinking About Your Goals**

Develop your study goals. What do you want to get from your course? Maybe you want to improve your study, or learn new skills. Whatever this goal is, write it down ahead of the course and focus on it during your course

### **Do Your Work**

Complete all of your homework and projects on time.

### **Start Early**

Do not wait until the last minute to complete homework.

Online learning allows you to be responsible for your own success. At last, it is up to you to stay organized, manage your time, ask questions, and complete all

coursework on time.

61. What becomes a more and more popular way of learning today? (no more than 4 words)

62. Why can it be difficult to focus on the material and homework when taking a class online? (no more than 9 words)

63. What is very important for taking a class online? (no more than 9 words)

64. 请将文中划线的句子翻译成汉语。

65. 请给短文拟一个适当的英文标题。
