Hello, everyone. Today's program is about protecting eyes.

People often say that eyes are the windows of our hearts. We use eyes to see the beautiful world. So we should take good care of them. In order to take care of our eyes, we should have good habits. First, we shouldn't keep the books too close to our eyes for a long time while we're reading. This is bad for our eyes. Second, we shouldn't watch TV or play computer games too long because too much screen time may hurt our eyes, too. Third, we shouldn't read in the sun or in dark places. Finally, after using our eyes for some time, we should have a rest. We can look out of the window to see the green trees or beautiful flowers.

In a word, eyes are important to us. We should love our eyes.
