六 任务型阅读: 阅读下面短文, 完成相关任务。(共 5 小题, 计 10)

An old man was fishing on the bank of a river. A girl came to see him fishing. The old man was really good at fishing and it didn't take long for him to catch a full basket of fish. The old man saw that the girl was very cute, and he wanted to give her a whole basket of fish. But the girl shook her head. The old man was surprised and asked, "Why don't you want the fish?"

The girl replied, "I want the fishing rod (竿) in your hands."

The old man asked, "Why do you want the rod?"

"It doesn't take long to eat all the fish in a basket. But if I have the fishing

rod, I can go fishing by myself and I won't be afraid of not having any more fish to eat."

I think you will certainly say that the girl is very smart. Wrong! If she doesn't know how to fish, she cannot have fish to eat, even though she has the fishing rod. It's useless to only have a fishing rod. Fishing skills are the most important, not the fishing rod.

Too many people think that if they have a "fishing rod" in their life, they will no longer fear the wind and rain. They are just like the girl, who thought that if she had a fishing rod, she would have fish to eat.

1. Where was the old man fishing? _____
2. Why did the girl refuse the fish the old man gave her? _____
3. In the writer's opinion, is the girl smart or stupid to only have a fishing rod? _____
