Lots of kids hate school, a new study found. Usually this kind of feeling doesn't last long. But what happens if you feel this way too much? School is a fact of life and getting a good education can help you build the kind of future life you want. So let's talk about school and what to do when you don't like it.

If you don't like school, the first step is to find out why. You might not like school because you don't have enough friends, or maybe you don't get along with your teacher. Sometimes it's a big problem with your classes and schoolwork. You may be getting farther and farther behind, and it may seem like you'll never catch up.

When you know why you don't like school, you can start taking steps to make things better. It's a good idea to talk to someone about your problems with school. Your mom, dad, teacher or school counselor (顾问) will be able to help you. Another good idea is to write down your feelings about school in a notebook. It's a great way to let out emotions (情绪). Remember, you don't have to share what you've written with others.

In most parts of the world, many students help their schools make less pollution. They join “environment club”. In an environment club, people work together to make our environment clean.

Here are some things students often do.

No-garbage (垃圾) lunches. How much do you throw away after lunch? Environment clubs ask students to bring their lunches in bags that can be used again. Every week they will choose the classes that make the least garbage and report them to the whole school.

No-car day. On a no-car day, nobody comes to school in a car-no students or teachers. Cars give pollution to our air, so remember to walk, jump, bike, or run! Use your legs! It's lots of fun!

Turn off the water! Did you know that toilets can waste twenty to forty tons (吨) of water an hour? In a year, that would fill a small river! In the environment clubs, students mend (修理) those broken toilets.

We love our environment. Let's work together to make it clean.
