**Mind Maps**

Mind maps are a great way of showing a picture of information that you need to learn. You can use mind maps for all kinds of learning. They work very well for vocabulary (词汇) when you are learning a new language. Here are the steps (步骤).

1. Draw a circle (圆圈) in the middle of the page and write the vocabulary subject in the middle.
2. Think about some word groups for "transport (交通)" and think of headings for each one. For example:

- sea transport
- land transport
- air transport

For each one, draw a short line (线) from the centre circle outwards. Add (增加) another circle and write the new group word in the middle.

3. Look at each group and try to add more groups. For example, in "land transport" there are two sub-groups:

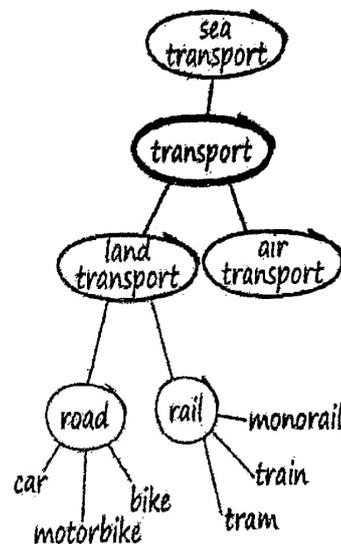

- road
- rail (铁路)

Draw two more lines, add two more circles and write the two new headings inside them.

4. When you can't make any new groups, add a line for each word you know. Write the words along the lines or, if you have space, write them inside more circles.

5. As you learn new vocabulary, add it to the mind map.

6. To make the mind maps even better, use colour to show important ideas or parts of the map.

**Class Afloat (漂浮)**

Class Afloat is a Canadian school on a tall ship! It can take up to sixty students.

Not all the students are Canadians. They are from different countries. The classrooms are full of things and comfortable (舒适的), and there's even a library!

The teachers plan special lessons for each student. Because the school is a ship, you can do some exciting classes, for example, Marine Biology (studying the animals and plants in the sea) and History of Geography courses about the places you visit.

Students also learn all about sailing (航行)!

Students don't just study. They must also clean, cook, and sail the ship. In their free time, students can rest, read, or watch a movie.

Every sixteen to twenty days, the ship stops in a port (港口) for three to six days. In the port there are lots of activities for the students to do—home stays, camping trips, museum tours, cultural events, hiking, and so on. They also go boating and do other water sports. Parents can meet up with the students in one port every term.

Students also take part in two volunteer projects in poor (贫穷的) places. They help people in different ways. Students learn how to make other people's lives better than before.

34. What is Class Afloat?

35. Is there a library on the ship?

36. How long does the ship stop in a port?
