Everyone has a special dream that they want to achieve.

As young students, you have many dreams. These dreams can be very big, such as winning the Nobel Prize; they can also be small, such as becoming one of the best students in your class.

Once you find a dream, what do you do with it? Do you ever try to make your dream come true?

Andrew Matthews, an Australian writer, tells us that making your dreams come true is life's biggest challenge. You may think you're not very good at some school subjects, or that it's impossible for you to become a writer. Those kinds of ideas stop you from realizing your dream.

In fact, everyone can realize his dream. The first thing you must do is to remember what your dream is. Don't let it leave your heart. Keeping telling yourself what you want every day and then your dream will come true faster. You should know that a big dream is, in fact, made up of many small dreams.

You must also never give up your dream. There will be difficulties on the road to your dreams. But the biggest difficulty comes from yourself. You need to decide what is the most important. Studying instead of watching TV will help you to get better exam results, while saving five yuan instead of buying an ice cream means you can buy a new book.

As you get closer to your dream, it may change a little. This is good as you have the chance to learn something more useful and find new hobbies.

49. The dreams can be very _____ for young students, such as winning the Nobel Prize.
A. small B. big C. boring
50. The underlined word "it" in Paragraph 4 refers to "_____".
A. challenge B. your dream C. your heart

A. You may think you're not good at some school subjects.
B. Making your dreams real is life's biggest challenge.
C. Listening to English more can help you realize your dream.

To many people, lack of experience and bad weather have been the most common reasons of death, USA Today reported.

After these tragedies (悲剧), one question is: Why do so many people risk their lives to climb the mountains?

The answer to the question is different for different people. Some people who take risks believe they are different from others. For others, reaching the top of Qomolangma is a lifelong dream.
