Lin Li, a teacher from Putian, gives young students advice on how to deal with danger.

If you are in a traffic accident

If a car hurts you, you should remember the car number. If it is a bicycle, try to call your parents before you let the rider go. This is because you don't know how seriously you are hurt.

If it is raining hard and there is lightning

Don't stay in high places and stay away from trees.

When there is a fire
