四、阅读理解 (一) 阅读下列短文，从每题所给的选项中选出最佳答案。(每小题 2 分，共 30 分)

A

American boys and girls love watching television. Some children will spend six hours a day at school, then spend another four to six hours in front of the TV set. Some even watch TV for eight hours or more on Saturdays.

TV shows are like books or films. A child can learn both bad things and good things from them. Some programs help children better understand the world. Others introduce them to people and places from other countries or other times in history. With TV, a child does not have to go to the zoo to see animals or to the ocean to see a ship. Boys and girls can watch plays, concerts or sports games at home.

Television brings many places and events into our homes. Some programs show crimes and other things that children shouldn't watch, so parents need to help their kids find other interesting things to do.

56. American children usually spend _____ a day at school.
A. six hours B. more than eight hours C. four to six hours D. four hours
57. Some American children spend eight hours or more _____ on Saturdays.
A. studying B. playing card games C. watching TV D. helping their parents

58. What is Paragraph 2 mainly about?

- A. Films children like watching. B. Animals that often appear on TV.
C. How children use TV to study. D. What children can see on TV.

59. What does the underlined sentence mean?

- A. TV is bad for children.
B. TV makes people love their homes.
C. People can learn about things without going to see them in real life.
D. People can see houses and buildings on TV.

60. What is the main idea of the story?

- A. Why TV is bad. B. The influence of TV on children.
C. How kids watch TV. D. Children's programs on TV.

B

The largest animal ever to live on Earth is the blue whale. It weighs about 80 tons--more than 24 big elephants. It is more than 30 meters long. A new baby whale weighs as much as a big elephant.

Cats won't die if they fall off very high places because they can turn themselves up the right way so as to keep their bodies safe. One cat fell off 32 floors onto the street, but it was just hurt a little.

A bear can run as fast as a horse.

A new-born panda is smaller than a mouse and weighs about 100 grams.

Elephants are the most careful animals in their love. A male elephant may show his lady love for up to three years until the female elephant takes his love. They often show their love by touching each other's body.

Usually, wolves do not hurt people. For years a Canadian newspaper says that they would give anyone a lot of money if he or she could show that a wolf could hurt a person. But nobody could do that. Wolves do not usually go together though they may do this in winter and they only hurt people at an unusual time.

61. How much does a new-born blue whale weigh?

- A. About 10 tons. B. As much as a baby elephant. C. About 80 tons. D. About 3 tons.

62. A bear can run _____ people.

B. Cats will die if they fall off very high places.
C. A mouse is bigger than a new-born panda.
D. Wolves usually hurt people.

C

Rock climbing (攀岩) did not become a sport until late in the 1900s. Now it has become a popular activity.

If you have ever done rock climbing, you will know that it is not a very easy sport. Indoor and outdoor rock climbing both need lots of practice. What most people don't know is that rock climbing is one of the sports that depend on your body and mind.

To climb successfully, you must know about some rules. One important rule is to always let three parts of your body be on the rock face. Another important rule is that your arms only hold you close to the rock face while your legs are pushing you up. The third rule is that the closer you are to the rock face, the easier it is to climb.

Rock climbing is a wonderful sport. Once you start to learn how to climb, you'll find lots of fun. People who like games such as playing chess and cards may also love rock climbing, because they are nearly the same in the way of thinking. For anyone who wants to be in good shape, rock climbing is a fun and good way. Anyone who enjoys difficult games and loves sports could think of rock climbing as a new hobby.

66. When did rock climbing become a sport?

- A. In 1900. B. Early in the 1900s. C. Early in the 1800s. D. Late in the 1900s.

67. During rock climbing, your _____ are pushing you up.

- A. arms B. legs C. hands D. stomachs

68. How many rules of rock climbing does the writer tell us in the third paragraph?

- A. One. B. Two. C. Three. D. Four.

69. The chess player may like rock climbing because _____.

- A. they really like to do sports B. they'd like to be in good shape
C. it is more interesting than playing chess D. it is like playing chess in the way of thinking

70. What can we learn from the passage?

- A. Rock climbing is a very easy sport.
B. When you climb, your arms push you up.
C. Rock climbing is a kind of indoor and outdoor activity.
D. The closer you are to the rock face, the more difficult it is to climb.

七、阅读理解 (二) 阅读下面短文, 根据短文内容回答问题。(每小题 2 分, 共 10 分)

Every time you eat seafood, you get red spots (红点) on your body. And every spring and fall, your friend gets a runny nose when you play in the garden. What's going on? Well, you and your friend may have allergies (过敏).

An allergy is a reaction from your immune system (免疫系统). The immune system keeps you away from diseases by fighting germs (细菌). But when you have allergies, it overreacts (过度反应) and tries to fight against things like grass, pollen or some foods. This makes your body feel uncomfortable.

Allergies are common around the world. According to the WHO, about 20 percent of the world's population suffers from allergies.

Food allergies are one of the most common types. Many children can be allergic to food like milk, eggs and peanuts. If you are allergic to certain foods, you may get red spots, an upset stomach or even have difficulty breathing. So far, people haven't found any good ways to stop food allergies. Just do not eat those foods as much as possible.

Seasonal allergies happen in most parts of the world. So how do you know if you are allergic to something? Skin (皮肤) tests are the most widely used way.

86. What is an allergy?

87. What may happen when you have allergies?

88. What food can make many children be allergic to?

89. Have people found any good ways to stop food allergies?

90. How do we know if we are allergic to something?
