Dear Jenny,

How is it going? I am pleased to tell you that I'll start high school this autumn. I'm very excited about it. Looking back at these past three years, I got something useful from my teachers and classmates. Besides, I made many friends. I learned a lot from them. On the other hand, I spent too much time on something meaningless. So my plans for the new school are as follows: First, I'll arrange my study time more effectively by making a timetable. Second, I will form some good habits, like being on time for school and being active in class. I'll also develop my interests and play more sports. If I make more close friends, I think I'll have a wonderful school life.

I'm looking forward to the next three years.

Cheers,
Li Hua

四、听短文，选择最佳答案。

In our school, there is a radio station. I am working for the station. We serve the students twice a day. In the morning, we tell the students about the weather and the latest news. We share all kinds of news, such as international news and sports news. Students' favorite is sports news. In the afternoon, we usually read some beautiful articles or play some popular songs. Many students give best wishes to their friends and teachers through our station. Sometimes we tell the students important notices or messages. When the examination time comes, we tell the students how to go over the lessons. We also tell them the examination rules. Many students like to write to us when they have problems. Because they want to get some advice to solve their problems. And we always give them advice as soon as possible. Many students think our advice is very useful. We are happy about that!

Good morning, everyone. Welcome to Class 4, Grade 7. I'm your new teacher. From now on, we are a big family. Let me tell you some values I want our class to have.

First, love is important for a united class. We should respect the teachers and care for classmates. Love means we should always be ready to help people in trouble.

Second, studies must come first. You must listen to the teacher carefully in class, take notes and review the material often, so that there can be an effective learning environment.

Third, follow the rules. For example, don't throw litter here and there. It's our duty to keep the classroom clean. Tomorrow, we will make our class rules together.
