The reason why people like “Survival Holidays” is that they think it helps children be close to nature. Many children in big cities spend all time watching TV and playing computer games. “Survival Holidays” can change them a lot.

Is “Survival Holidays” a wonderful idea? Maybe it is. Children need more free time to play. They need to be left on their own without adults *disturbing*(打扰) them. Parents like to see the children being busy with activities that are *controlled* (支配) by adults, but children don’t know what to do when they are in danger. Even something like crossing a small river seems to be a hard *challenge* (挑战). Children are not comfortable with danger. Even small danger like getting their feet wet or falling down seems very terrible to them.

Many people think the survival activities are good for children. Even years later, they will still remember what they have learned. Some have learned to stay calm in different times. Some have learned how to keep safe. Others have learned how to work in a team. All these skills will help them a lot in their lives.

范文:

The Changes in My Friend

My best friend Li Hua is very different from before this term. He changed a lot during last summer vacation. He used to be as tall as me, but he is taller than me now. He said he exercised every day during the summer vacation. And he studies more seriously than before because of his growth.

As his best friend, I should learn from him. In new term, I will go to bed and get up early every day, eat more healthy food and exercise more, so that I can stay healthy and grow faster. In study, I will study harder in class, do my homework actively. We can help each other and make progress together in study.

I believe that I will also have great changes in new term.
