听下面一段独白, 回答第 16-20 小题。

It's reported that not getting enough sleep can cause problems in a student's life. Many students fall asleep in class or while doing their

homework, so they get lower grades than those who get enough sleep. Many scientists suggest middle school students should have about 9 hours' sleep a night. As for the students who feel nervous and forgetful, most of them don't get enough sleep at night.

Why aren't students getting enough sleep?

Most students have one of the following things: too much homework, a mobile phone, or a computer in their bedrooms. As a result, many students can't fall asleep before 11:00 p.m. But they have to get up early for school the next day.
