Welcome to my cooking lesson! Today I'm going to teach you how to make a hot pot. Does it sound interesting?

Buy some food before you cook the hot pot, such as all kinds of vegetables. For meat, pieces of pork and beef are better. When you cook a hot pot, you put some food into the pot. The most important thing is the hot pot soup, so don't forget to buy it from the supermarket. OK, now let's begin. First, add some water into the hot pot soup and cook for about 30 minutes. During that time, you can clean the vegetables and put all the food on the plates. Then, after the soup is ready, put some vegetables and meat pieces into the soup. About 5 to 10 minutes later, you can enjoy it.

I'm a junior high school student from Fuzhou. I am busy studying from Monday to Friday. I have to go shopping on weekends. I often do some shopping with my mother. Sometimes I buy some snacks with my friends. Sometimes I buy my own clothes by myself. When I want to buy something expensive, for example, a sports suit, I have to ask my parents for some money. If they don't agree, I will save my pocket to buy it. I usually shop in some big supermarkets. Online shopping is becoming more and more popular. But I don't like online shopping because I don't think it's safe enough.
