Students these days often have many worries. They have problems 31 their schoolwork, and sometimes with their friends. How do they 32 with these problems? Different people have different 33. Some people believe the worst thing is to do 34. Laura Mills, a teenager from London thinks problems and worries are normal in life and 35 to someone helps a lot.

Laura once lost her wallet and she worried for days. She was 36 to tell her parents about it. She even walked three miles to school every day 37 she had no money. 38, she talked to her parents and they were really understanding. Her dad said he sometimes made 39 mistakes himself. They got her a new wallet and asked her to be more careful. She realized it was 40 for her to share the problems.

Robert Hunt agrees 41 Laura and he gives students some advice. Everyone shouldn't run away 42 the problems but try to solve them. The first step is to find someone 43 they trust and then tell him or her the problems. In fact, children should remember their parents who are 44 of experience and they are always there to help them.

Sharing a problem is like cutting it in half. So you're halfway to 45 a problem just by talking to someone about it.

Once a king got two nice falcons (猎鹰) from his son. He had never seen such beautiful falcons before. He loved them so much and he ordered the best falconer to train them to fly. After several months, the king came to see how the training was going on. He found that one falcon had already been able to fly high in the sky, while the other was staying on the branch of a tree quietly, just keeping still.

The king called all his falconers together and ordered them to try every way they could to make the other falcon fly. But none of them succeeded. One day, while the king was taking a walk in the forest, an idea came to his mind. Maybe someone who knew the natural environment well could solve this problem. He sent for a farmer who lived in the forest into his palace to train it at once. The next morning, the king saw the other falcon flying above in the sky freely. “It’s unbelievable! How could you make it happen?” The farmer replied, “It’s very easy. I just cut off the branch where the falcon rested.” It’s always the same to human beings. We all have “two flying wings” in our hearts as well, but we often don’t seem to notice them and stay where we are just for safety and comfort. We won’t realize we can fly so high and freely until the “branch” we are resting on breaks.

()61. The king loved the falcons so much that he wanted them to fly.

()62. A few months later, the two falcons were able to fly freely.

()63. None of his falconers could succeed making the other falcon fly.

()64. Finally the king's son made the other falcon fly in the sky.

()65. Everyone has "two flying wings" in their hearts like that falcon in the story.
