This is true. To keep healthy, we must have enough sleep. Experts (专家) say

We also need exercise. Walking, running, swimming and playing games are all exercise. Exercise keeps us strong. It also helps the blood to move around the body. This is very important. Our blood takes the nutrition (营养) from food to all parts of our body.

So it takes them a lot of time. Some students have to get up early every morning on weekdays to get to school on time by bus, by bike or on foot. It can be a long way from home to school.

Schools and parents should cut down some of the homework, so that students can enjoy more than nine hours of sleep every night for their health. For students, they should make best use of their time. When they have enough sleeping, they will find it much better for both their study and health.
