Leap year

There are 12 months in a year. They are January, February, March, April, May, June, July, August, September, October, November and December.

In January, March, May, July, August, October and December, there are 31 days in each month.

In April, June, September and November, there are 30 days in each month. There are usually 28 days in February. But in a leap year, there are 29 days in February. So in a leap year, there are 366 days.

If someone was born(出生) on the last day of February in a leap year, he or she has only one birthday every four years(每四年).

Do you know whose birthday is on the last day of February in a leap year?

- () 1. There are _____ days in June.
A. 28 B. 29 C. 30
- () 2. There are 30 days in _____ and there are 31 days in _____.
A. October, November B. September, December C. April, June
- () 3. There are 29 days in February in _____.
A. a leap year
B. the year of the rooster
C. the year of the monkey
- () 4. Judy was born on the 29th of February. She is 14 years old. She had(有) _____ birthdays.
A. 3 B. 7 C. 14
- () 5. “Leap year” means _____.
A. 闰年 B. 平年 C. 牛年
