参考范文:

#### **I will try to get over my weakness**

Everyone has his or her weakness and I'm no exception. My weakness is that I'm not self-disciplined enough.

For example, I sometimes spend lots of time playing with computer games and I later regret it. I know playing computer games for too long is not only bad for my health but also makes me lose interest in my schoolwork. That's why I want to get over this weakness.

To reduce my time spent on computer games, I force myself to exercise for a while every day. In addition, I go to the library to do my homework, as well as doing some reading there.

I am convinced that I can get over my weakness through my effort. Only in this way, can I improve myself and achieve great success.
