I have changed a lot.

How times flies! Two years has passed.I have changed a lot.

I used to be shy and quiet in class.But now I am not shy anymore.My good friend encouraged me to make more friends and he gave me a lot of help.Now I am outgoing and active.The most change in my life is that my English improved a lot.Thanks to my English teacher,Ms. Li,I have made great progress. She gave me some useful advice on English.Gradually,I became more and more interested in English.And my grades have become better and better.

From this experience,I get to know that when change comes,we should face it bravely.
