## 二、阅读理解 (20 小题, 每小题 2 分, 共 40 分)

阅读下面四篇语言材料, 然后按文后要求做题。

## A

To learn from a picture book, both the story and pictures are important. Here are some tips(提示) to help you when you read a picture book to your children.

Tip 1 Talk about the cover first. Read the name first. Look at the picture on the cover. Ask them what they see in the picture. This might help children learn something about the story in the book.

Tip 2 Use easy words. If the words of the book are too difficult for your kids, you can tell the story in your own words. And remember that the pictures are always there to help you tell the story.

Tip 3 Ask questions about the story. You can just ask some yes/no questions if your kids are still little. Wh-questions will be more helpful when your children can answer.

Tip 4 Use different voices(嗓音)for each character. Changing(改变)your voice for different characters will help your children understand which one is talking. This will also make the story more interesting.

根据材料内容选择最佳答案。

## C

Scientists have always wanted to know more about the universe(宇宙).

Years ago, they knew many things about the moon. They knew how big it was and how far away from the earth. But they wanted to know more about it. They thought the best way was to send men to the moon. The moon is about 384, 000 kilometers away from the earth. A plane cannot fly to the moon because the air reaches only 240 kilometers away from the earth. But something can fly even when there is no air. That is a rocket.

How does a rocket fly? There is gas(气体)in the rocket. When the gas is made very hot inside the rocket, it will go out of the end of the rocket, so it can make the rocket fly up into the sky. Rockets can fly out into space. Rockets with men in them have been to the moon. Rockets without men in them have flown to another planet much farther away than the moon. One day rockets may be able to go to any place in space.

根据材料内容选择最佳答案。

31. What did scientists know about the moon?

A. How big it was. B. How long it was. C. How old it was. D. How heavy it was.

32. How far is the moon from the earth?

A. 240 kilometers. B. 384, 000 kilometers.  
C. 2400 kilometers. D. 384 kilometers.

33. Why cannot a plane fly to the moon?

A. Because there is no gas in the plane.  
B. Because the plane is not strong enough.  
C. Because the plane must be driven by a man.  
D. Because there is no air above 240 kilometers away from the earth.

34. What is the hot gas in the rocket used for?

A. Keeping the men in the rocket warm. B. Keeping the air in the rocket new.  
C. Cooking food for the men. D. Making the rocket fly up.

35. Where have rockets without men in them flown?

A. The sun. B. The moon. C. Another planet. D. Space stations.

## D

Do you have an English name? I have found one thing in China: 36

One of my Chinese friends calls herself Big Bird, like the character from the

children's TV show *Sesame Street* (《芝麻街》). 37 She had students with the names Tomato and Potato. 38 Before I came to China, I had never met anyone with these names.

People choose these strange(奇怪的)names for different reasons. 39 Other times, they want names that have the same meaning as their Chinese names.

But having a silly(傻的)English name isn't important, is it? 40 I once heard about a girl named Shmily. It stands for "see how much I love you". It is my favorite strange English name.

根据材料内容,从下面五个选项中选出能填入文中空缺处的最佳选项,使短文意思通顺、内容完整。

- A. Sometimes they use the names from someone famous.
- B. Another one of my friends is an English teacher.
- C. Lots of people have unusual English names.
