Music and books are important. Life without music and books is just like a cold winter without ____21____. Most of us love reading books and enjoy music. But have you ever thought

that they belong to the same thing ---literature(文学)? This has led to hot discussions among the book and 22 fans.

Many people agree that both of them belong to literature. They think both music and books serve 23 purpose of expressing thoughts and feelings to others in the form of arts. It's just that people understand music through ears and understand writers' ideas through 24. In fact, someone even argues that our ears and eyes can work 25 to make people more creative and relaxed in the art world.

However, not all people find this reason acceptable. They're more strict with the definitions(定义) of reading and music. For example, some people explain music as the sound 26 from instruments such as the guitars and the violins. For them, playing music is more of a physical thing. Without instruments, it seems that 27 music at all. On the other hand, reading is more like a process going on in the mind because even a simple word like "sun" can give us many different meanings and imagination in our mind. But it also requires an "instrument", which is the 28.

Is there any way to connect 29 of them? That's why we have lyrics(歌词). With them, songs are a mix of music and words. According to different ways of singing the words, you can easily understand the singers' feelings even if you don't really understand 30 they're singing.

三、阅读理解 (本题共 20 分, 每小题 1 分)

Dear Liu Chang,

It's not easy to be abroad and it's normal to have such problems before travelling. Don't worry. Let me tell you how to start a small talk with local people.

In Britain, the best topic is the weather. British weather changes quite often. It's also a safe topic. You can start a small talk simply by saying "It's a lovely day today, isn't it?" Besides weather, it's good to talk about gardens. For example, you could say, "Those roses look really

beautiful,don't they?"English people love their pets. So it's also nice to start with "What a lovely dog! What is his name?"

In America,people like to talk about sports,such as American football. They also talk about clothes by saying"It's a nice shirt! Where did you get it?" Weather is a safe topic there,too.Of course,there are also a lot of unsafe topics during a small talk in Western countries. Don't ask people "How old are you?" Age,especially for women,is usually a secret.Never ask "How much money do you make?"It makes people uncomfortable.

Don't ask strangers whether they are married, have a girlfriend or boyfriend. Politics or religion (宗教) is not a good topic for two people who have just met, either.

In a word,small talk is easy as well as uneasy.Be careful when you talk to foreigners,but don't be afraid of making mistakes.I hope everything goes well for you.

Yours,
Paul

Imagine being in deep underground or in a cave,and you have no food and water.You're not even sure if anyone knows you're down there. How terrible it is! A soccer team of 12 young Thai boys,as well as their coach,had to go through this terrible experience this summer.They were in a cave in Thailand on June 23,spending 18 days inside until they were saved by an international team of divers.Unfortunately, one of the divers died while trying to save these kids.

At first,the divers felt as if there might be no way to get the children out.But they held out hope anyway. They refused to give up hope for these kids,even when the situation seemed quite

dark. They were rewarded for their hope when they finally saved the kids and their coach. It can be hard to hold out hope in dark times.

Every day, we read or hear about the terrible things that happen in the world. This makes it hard for us to stay positive. Some people believe that the worst is always just around the corner. However, I believe that it's especially important to stay positive during difficult times. This is the best way to deal with the challenges in life. Make rules for Internet use with your parents. For example, when you can go online, for how long and what activities you can go online. Don't give your password to anyone else, and never give out the following information—your real name, home address, age, phone number or other personal information. Check with your parents before giving out a credit card number. Never send a photo of yourself to someone in email unless your parents say it's OK. Check with your parents before going into a chat room. Different chat rooms have different rules and attract different kinds of people. Always remember that people online may not be who they say they are. Treat everyone online as strangers.
