IV 书面表达 (15分)

One possible version:

As is known to all, the environment around us is getting worse and worse. In some places, rivers become so dirty that we can't see fish swimming in them. The sky turns grey and no white clouds could be seen. And people in some places have no clean water to drink. Therefore, it's time for us to do something to protect the environment.

To start with, we shouldn't throw rubbish into rivers. Besides, we ought to save water in our daily life. Moreover, we are supposed to protect and plant more trees. Furthermore, it is significant to encourage people to use public transportations. Last but not least, it is a good choice for people to fully realize the importance of environmental protection through education. The little things we do will make a great difference.

In summary, lucid waters and lush mountains are invaluable assets. we can't emphasize the importance of protecting the environment too much. Let's join hands to build a beautiful China!
